Inbound Logistics Names Robocom Systems International to the Top 100 List of Logistics IT Providers for 2013

Farmingdale, NY and Markham, ON, May 14, 2013.   Robocom Systems International announced today that the company has once again been selected by Inbound Logistics to the Top 100 List of IT Providers.

Every April, Inbound Logistics editors recognize 100 logistics IT companies that support and enable logistics excellence. Drawn from a pool of more than 300 companies, using questionnaires, phone calls, personal interviews, and other research, Inbound Logistics selects the Top 100 Logistics IT Providers who are leading the way in 2013. Editors seek to match readers' fast-changing needs to the capabilities of those companies selected. All companies selected reflect leadership by answering Inbound Logistics readers' needs for simplicity, ROI, and efficient implementation.

Felecia Stratton, Editor, Inbound Logistics said, "Robocom Systems was recognized by Inbound Logistics for leading the way in 2013 and positioning enterprises for the years ahead. Robocom Systems excels at providing solutions that drive supply chain excellence and answer IL readers' need for simplicity, ROI, and efficient implementation."

Fred Radcliffe, President of Robocom said, "We are pleased to have been once again recognized by Inbound Logistics as a Top 100 Logistics IT Provider for 2013. We continue to expand our supply chain execution software offering to help our customers respond to the ever changing demands of their supply chain. This award from Inbound Logistics confirms that our effort to deliver solutions that fit our customers' requirements and deliver maximum benefits with a rapid ROI has been recognized."

About Inbound Logistics

Inbound Logistics is the pioneering publication of demand-driven logistics practices, also known as supply chain management. IL's educational mission is to guide businesses to efficiently manage logistics, reduce and speed inventory, and neutralize transportation cost increases by aligning supply to demand and adjusting enterprise functions to support that paradigm shift. More information about demand-driven logistics practices is available at www.inboundlogistics.com

About Robocom
