

Goodwill Industries of North Georgia Selects Robocom's WMS

Farmingdale, NY and Markham, ON, September 8, 2010 – Robocom Systems International, a provider of Supply Chain Execution Software announced today that Goodwill Industries of North Georgia has chosen to implement RIMS warehouse management solution from Robocom in its Chamblee, Georgia warehouse.

Goodwill Industries of North Georgia (GING) was recently awarded a new contract to operate a distribution facility for a federal agency under the AbilityOne Program. AbilityOne provides employment opportunities to more than 40,000 people and is the largest single provider of jobs for people who are blind or have other severe disabilities in the United States.

Jerry Hise, GING Vice President of Facility Services, said, "After a careful review, RIMS was selected to help Goodwill Industries increase their warehouse accuracy and efficiency which will enable Goodwill to outperform the incumbent company from which GING will be taking over the operation. Robocom has been highly responsive to our needs and we believe they will be a strong partner with us going forward."

According to Rich Adamo, Robocom Vice President, "Goodwill requires that the warehouse management solution complies with Federal regulations known as Section 508." (Section 508 is a set of Federal regulations that require Federal agencies' electronic and information technology to be accessible to people with disabilities.) "Goodwill will utilize RIMS in concert with an innovative application of hand held devices to track and trace package delivery from point of receipt at the warehouse straight through to delivery to the end user" according to Rich Adamo.

"Robocom continues to be keenly focused on the needs of the leaders responsible for the day-to-day results in warehousing and distribution center operations," said Fred Radcliffe, Robocom President. "Being selected by GING is really exciting for us. It validates our focus to deliver effective supply chain execution software that is highly user friendly. We are excited about bringing our capabilities to Goodwill Industries and we continue to believe that we have one of the best development teams in the supply chain execution software industry."

About Goodwill Industries of North Georgia – Established locally in 1925, Goodwill Industries of North Georgia is a 501 (c) (3) organization. Our organization has been in the janitorial business since 1982 and in 1996, we began offering facilities management services to customers across the region. Currently, Goodwill employs 360 employees and our organization provides building maintenance services for 4.1 million square feet of building space each day.
